

Resume

KHUSHI KARADIGUDD

PROFESSIONAL SUMMARY

Focused and disciplined Computer Science Engineering student with hands-on experience in building practical applications like AgriMitra and a medical chatbot. Strong at planning, presenting, and breaking down complex ideas. Actively learning full-stack development and improving technical depth. Known for consistency, confidence, and fast learning.

EDUCATION

B.E. in Computer Science & Engineering

Maratha Mandal's Engineering College, Belagavi

CGPA: 7.8

TECHNICAL SKILLS

Programming: Python, Java, C (Basics)

Web Development: HTML (learning fully), CSS, Understanding of front-end structure

Database: SQL basics, DBMS concepts, Simple queries & table design.

PROJECTS

AgriMitra – Agriculture Assistance App

Team project helping farmers with real-time market insights & a selling platform.

Created structure for Introduction + Future Scope and delivered confidently.

Prepared a detailed business plan for Manthan 2025.

Focus: problem statement, local scalability, farmer-first features.

Onroadly – On-Road Vehicle Assistance App

Concept app offering emergency roadside support.

Defined positioning and tagline: "Your Journey, Our Priority."

Designed the initial flow: issue reporting, live help, nearest mechanic lookup.

Medical Chatbot

Built using simple rule-based logic to answer medical-related queries.

Focused on user-friendly flow and clean conversation path.

Art Portfolio

Runs an Instagram page for pencil sketching.

Creates commissions and original pencil artworks.

ACHIEVEMENTS

Presented AgriMitra at Manthan 2025 with strong confidence.

Successfully overcame stage fear and improved public speaking.
